Country Strategic Plan Development for the World Food Programme

In 2024, Impact Tank facilitated the World Food Program (WFP)'s pivotal 5-year Country Strategic Plan Workshop in Namibia. Through our expertise in interactive workshop methodologies and strategic development, we provided advisory support to WFP's new strategy, which introduces an innovative and sustainable approach to food systems development, emphasizing economic sustainability, strategic partnerships, and forward-thinking innovation.

We were proud to facilitate this important workshop. Utilizing our interactive workshop methodologies and cooperative approach to strategy development, key stakeholders were able to debate, collaborate, and validate this exciting vision for the WFP's next 5 years. We look forward to partnering with the WFP to help build the resilience of Namibians and fulfil its mandate to not only save lives but also change lives.

We remain committed to supporting the WFP in building resilience among Namibians, aiming not just to save lives but to transform them.

ABOUT IMPACT TANK

- We are Namibia's first social impact venture builder, founded in 2020.
- Our projects focus on 3 thematic areas: Emerging Technology, Blue & Green economy and Indigenous knowledge.
- We aim to impact the lives of thousands of Namibians and inspire further action by the market.
